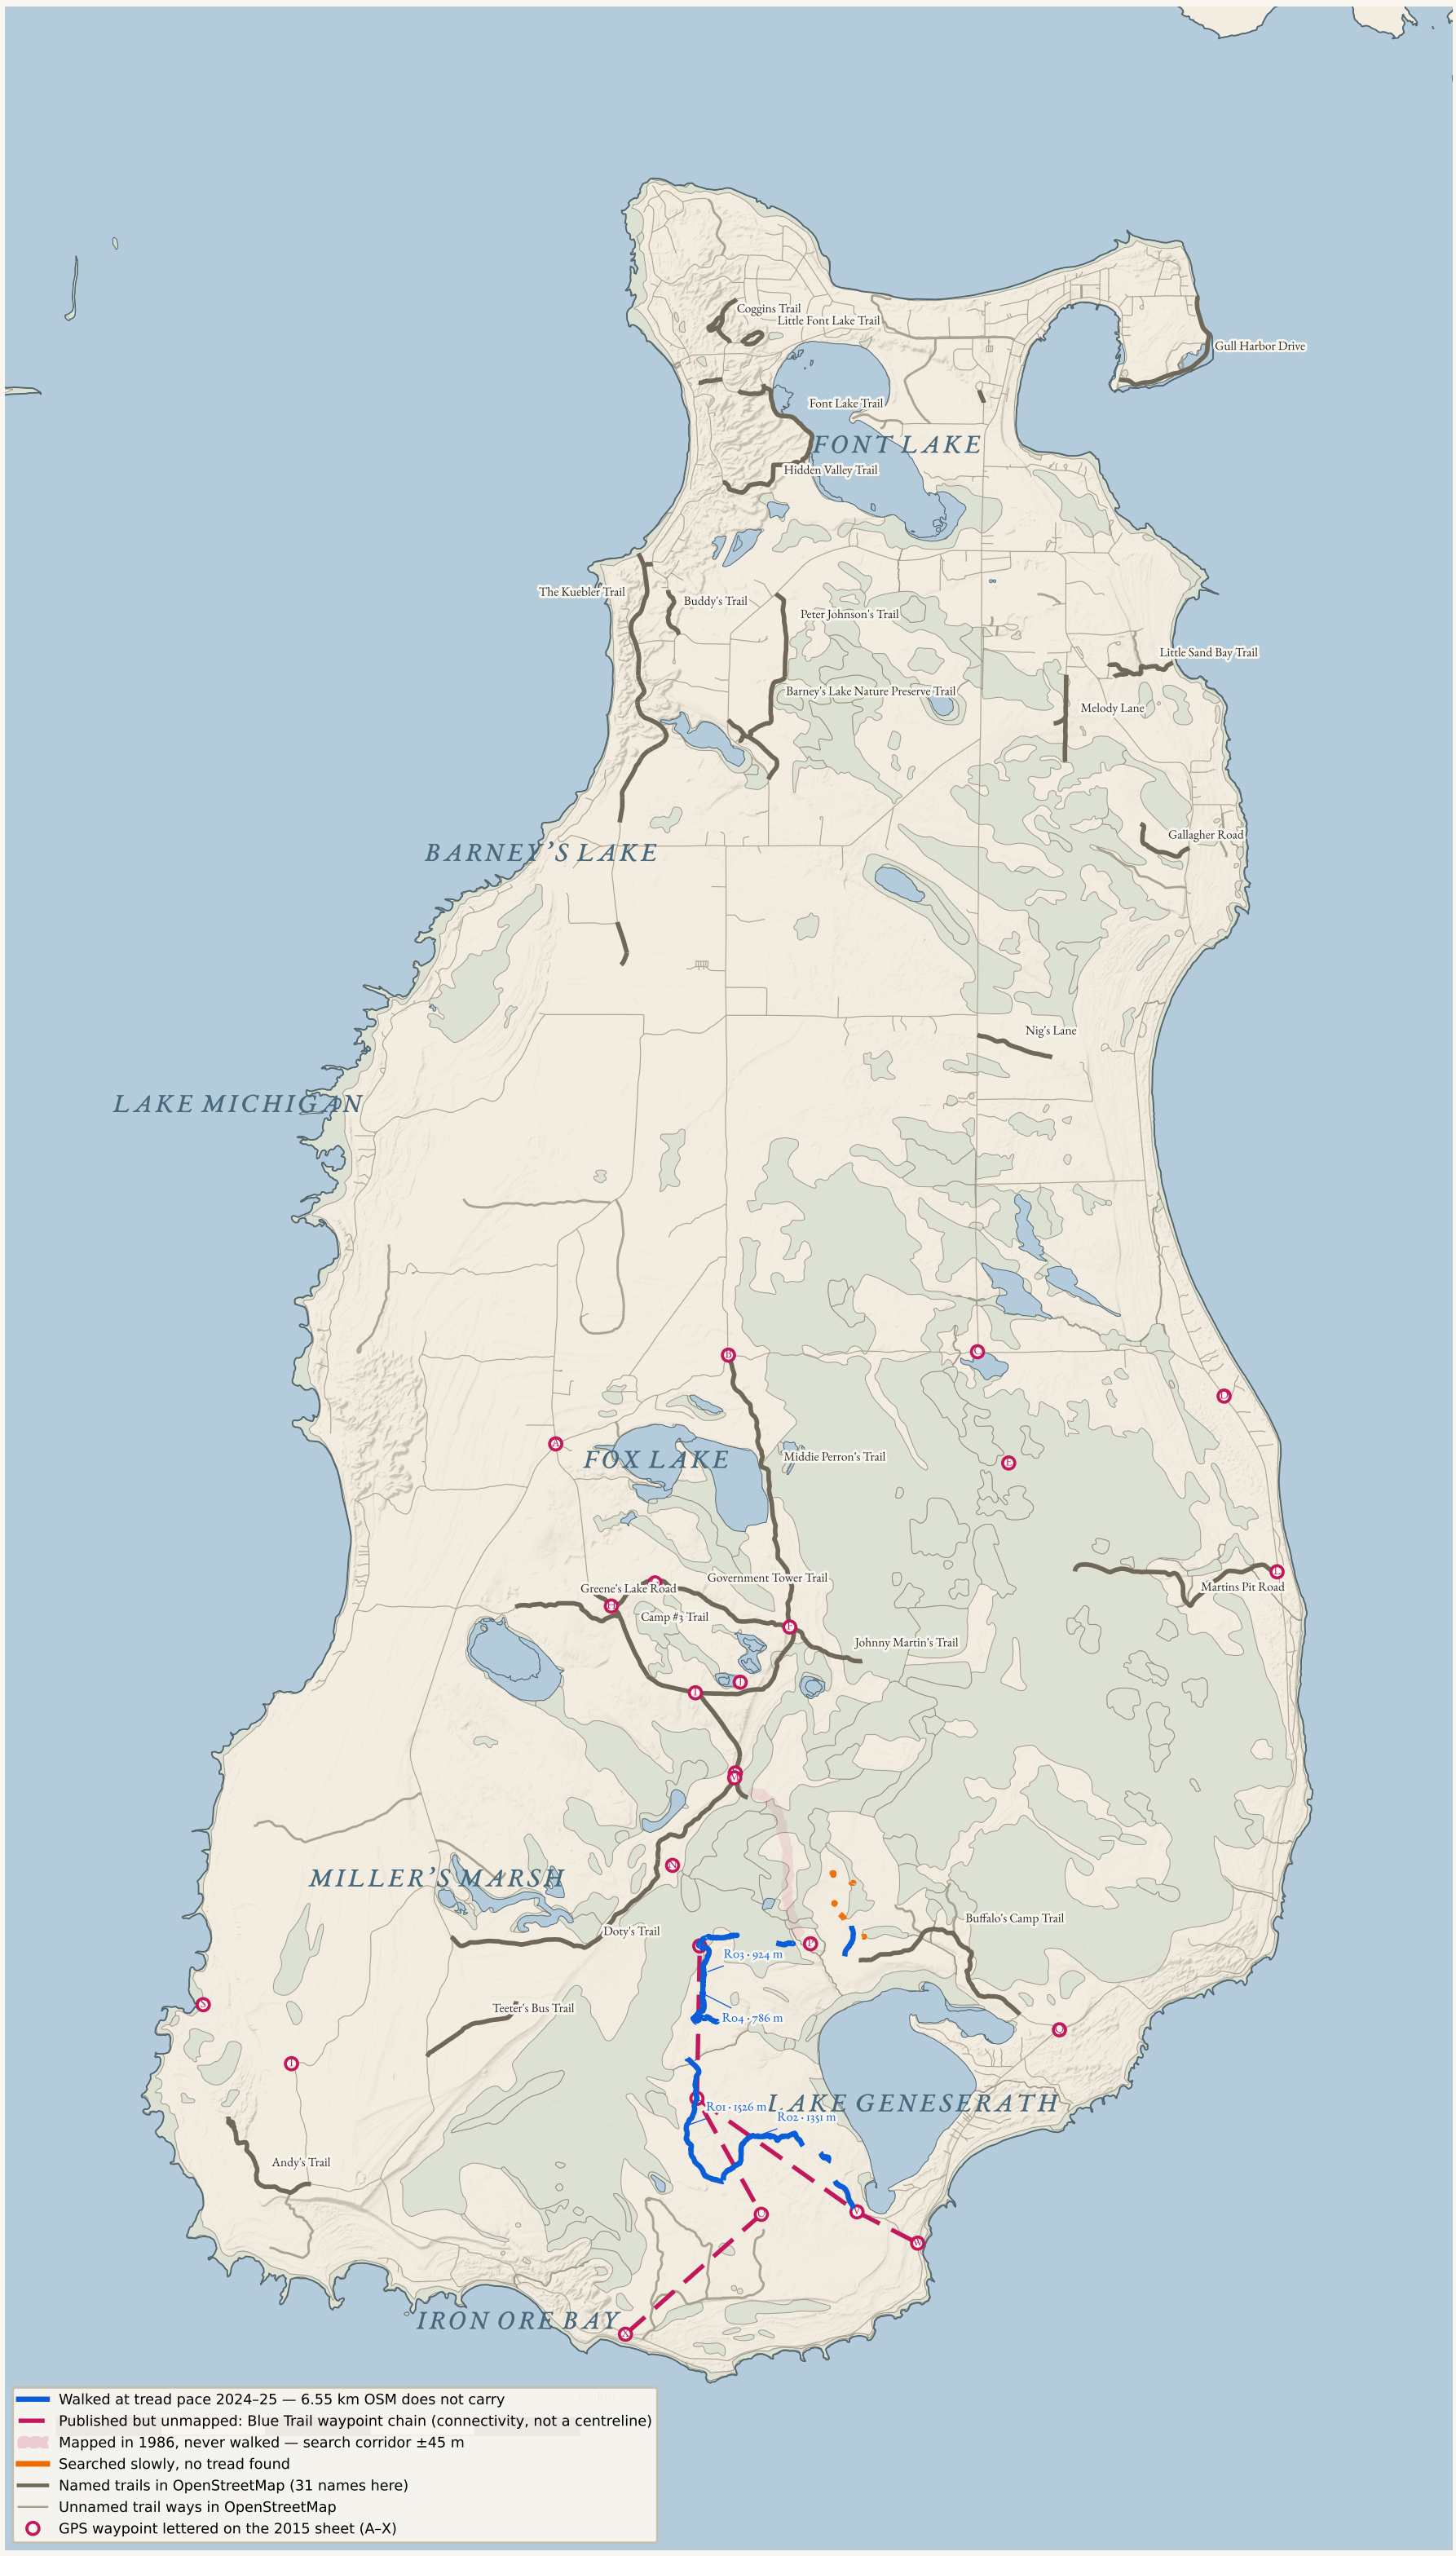
BEAVER ISLAND · THE TRAILS

what is walked, what is mapped, and what is published but unmapped



OpenStreetMap carries 58.1 km of trail here across 94 ways. The township and the Beaver Island Trail Association publish sheets for routes it has no geometry for at all — Blue Trail (West Lake Trail), 7 Bridges / Hannigan's to Wagner. Walked GPS exists only at the south end.
Waypoints from the Beaver Island Trail Map, rev. Oct 2015 · trail sheets, July 2019 · 1986 continuation from USGS Beaver Island South 1:24,000, georeferenced from its own GeoPDF transform · relief from USGS 3DEP 2018 1 m bare-earth LiDAR · © OpenStreetMap contributors (ODbL 1.0)
The trail meanders around wetland: a mapped line and a walked track can differ by tens of metres with neither being wrong. Not for navigation.
