

High Island vegetation and land-cover context

Annual NLCD 2025, 30 m classes · not a natural-community map

Sources: © OpenStreetMap contributors (ODbL 1.0); USGS 3DEP (public domain); USGS MRLC Annual NLCD (public domain). Annual NLCD 2025 is 30 m land-cover context, grouped here for display. It is not a natural-community survey, tree-species inventory, wetland delineation, field condition, or stewardship-treatment map. MNFI 2017 site summaries remain map-free source context; no occurrence geometry is inferred.
