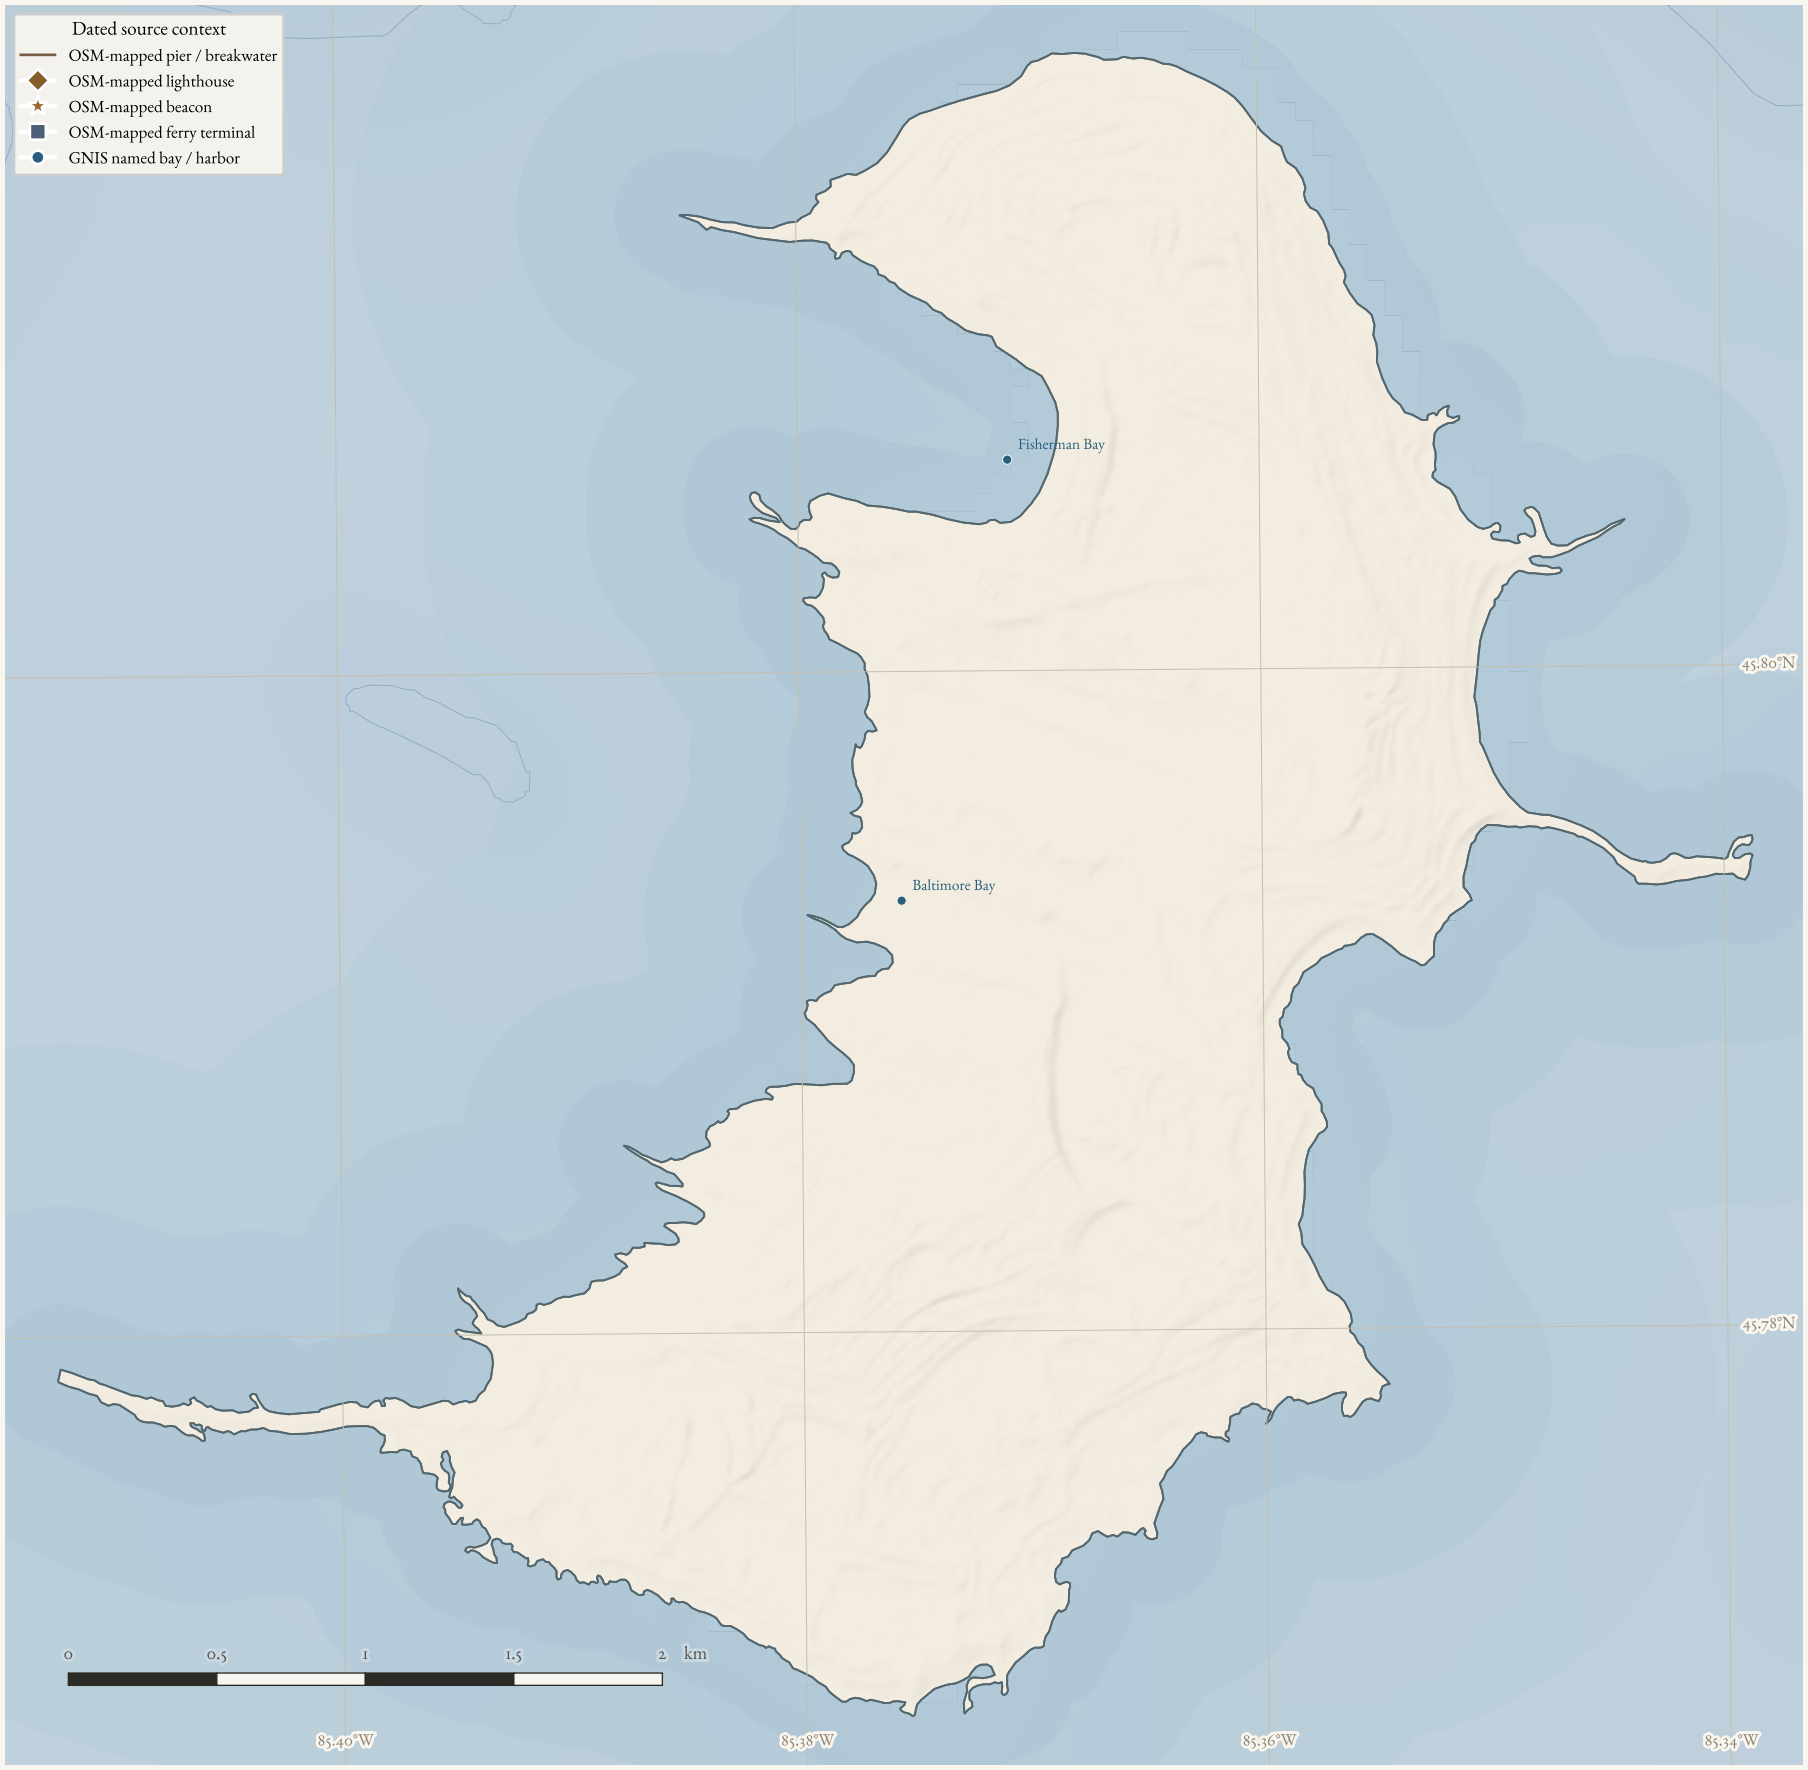
Hog Island coasts, harbors, and navigation context

Island-scale maritime reference context · not a navigational chart



Sources: © OpenStreetMap contributors (ODbL 1.0); USGS GNIS; USGS 3DEP (public domain); NOAA NCEI Great Lakes bathymetry (public domain).
No ferry route, vessel track, current aid status, safe passage, ownership, shoreline-change trace, or located shipwreck is shown. OSM features are mapped context (local extract retrieved 2026-07-28); GNIS points are named-place locators. Held 1855/1907 chart scans are source views, not warped overlays.
