

The Places Hunt

The twenty-four places the encyclopedia refers to most often.
Ranked by the archive, not by the view.

This sheet is a slice: places has 183 in the full list. The rest are on the website and in the field checklist.

How it works

1. Take a photograph of each thing on the list. Any camera counts - a phone is fine.
2. Tick the box when you have the picture, and write down where you were.
3. You do not have to get them in order, and you do not have to get them all.
4. Stay on roads, trails and public beaches. Ask before you cross anyone's land.
5. Look, don't touch: leave the plants growing and the bark on the trees.
6. If an animal changes what it is doing because of you, you are too close. Back away.

Draw the best thing you found

Made from the Beaver Island Archive. Nothing here was made up: the animals come from public observation records, the trees and plants from forest surveys, 1800s land-survey field notes and natural-features reports, the ground from geological mapping, and the places from the archive's own encyclopedia. The complete list, and the reasons behind each entry, is at beaverislandarchive.org/photo-hunt/.
